REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

- a. A primary reason for the allowance of claims 1-10 and 18-19 is that the prior art fails to teach or suggest, either alone or in combination, the coated article wherein the coating has the coating on the article includes all of the compounds instantly claimed (i.e. MgO, Mn₂O₃, MnO₂ and at least one oxide from the group consisting of vanadium, molybdenum and tungsten), wherein the coating is an <u>electroless</u> conversion coating, wherein the coating has the structure that results from an electroless conversion coating
- b. A primary reason for the allowance of claims 11-17 is that the prior art fails to teach or suggest, either alone or in combination, the <u>electroless</u> process wherein the process includes the step of coating magnesium or magnesium alloy surfaces wherein the composition includes an aqueous passivating electrolyte comprising potassium permanganate and the alkali or ammonium salt of an anion from the group consisting of vanadium, molybdenum and tungsten, as instantly claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
